PROFESSIONAL EXPERIENCE

Software Engineer — Penta Global Limited — Aug 2023 – Present

Dhaka, Bangladesh

Yaana Technologies (USA) — NeuString | *~2 years*

- Develop and maintain business-critical frontend modules for NeuString, Yaana Technologies' global wholesale telecom/roaming platform used by international telecom operators.
- Own and independently manage the Reconciliation, Billing & Charging Evaluation (BCE), and Amazon QuickSight (AQS) modules, covering feature development, enhancements, fixes, and delivery.
- Collaborate with distributed engineering teams across India, Ukraine, and Poland; participate in code reviews and mentor a junior developer.

Government Intelligence Project

- Contributed to a large-scale government intelligence/telecommunications monitoring system, working on enterprise application features and frontend development.

Anti-Corruption Commission (ACC) — ERP

- Contributed to an enterprise ERP system for the Anti-Corruption Commission, developing and maintaining frontend features and supporting business workflows.

National Election Management Project

- Contributed to a Bangladesh government national election management system, helping deliver frontend functionality for a large-scale public-sector application.

Frontend Developer (Executive) — BYSL Global Technology Group — Jun 2022 – Jul 2023

Dhaka, Bangladesh

- Built and maintained the company's main corporate website and reusable frontend templates.
- Contributed to Intelli Digital, a marketplace project, collaborating with backend and QA teams through the SDLC.

Junior Software Engineer — TechHack Canada — Dec 2021 – May 2022

Dhaka, Bangladesh (on-site — company registered in Canada)

- Developed frontend features for an employee hiring platform serving the Canadian market.
- Improved application responsiveness, UX, and overall stability.
